Granada Interior Doors Company was established in 2020
It is located in New Damietta City - Industrial Zone, Plot No. 11,
Block 24K, main branch, and a showroom for interior doors.
In 2022, we were able to expand in the industrial zone, 3 km
away, with a new factory We specialize in manufacturing the
finest PVC interior doors, laminate doors , MDF doors, and wood
veneer doors to satisfy all tastes.
We have a large production line of 3,000 square meters.
The number of professional employees is 200 people.
We have the highest technology to produce doors thanks to
modern equipment imported from abroad and professional
manual labor to implement accuracy and high skill.
We have many authorized agents all over the country internally
and externally in Saudi Arabia.
We export to many African and Arab countries and have
external distributors.
Please contact us to fulfill your request.
We very much welcome all customers and we would like you to
visit us and see the method of production and products on the
ground.

About Us

WE PROVIDE

We provide what suits the customer in terms of the sizes and colors of our various products.

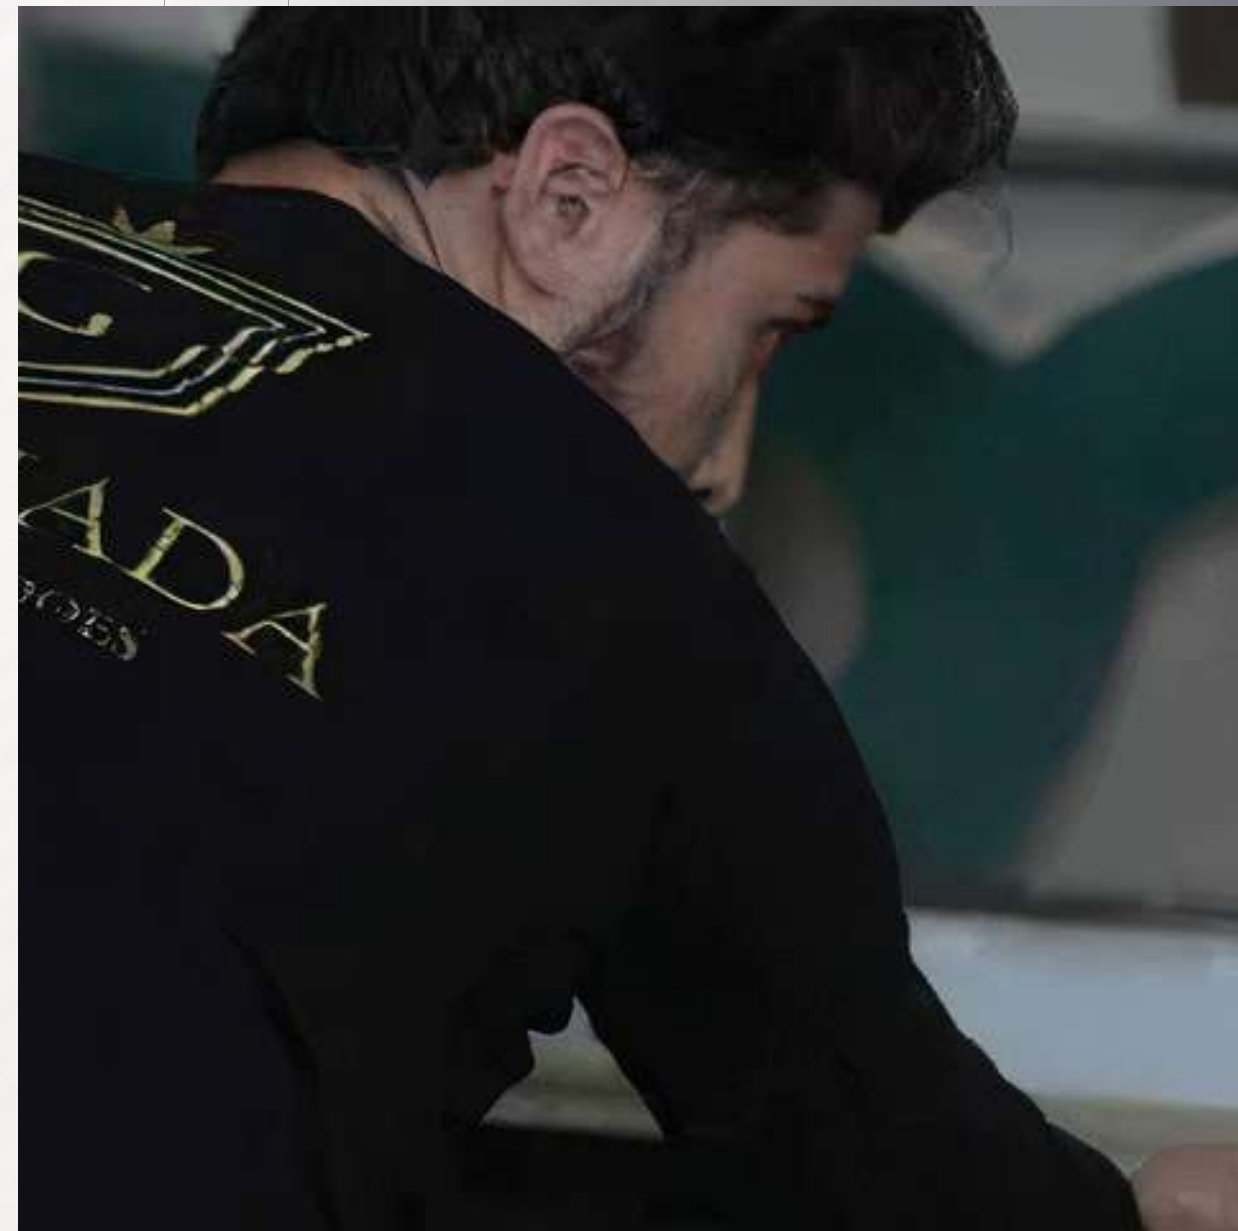

We produce in large quantities monthly and are ready to meet any quantities that the customer needs. We offer interior doors of different materials to suit all tastes by using high-quality natural wood and also PVC doors that are resistant to water and heat and MDF doors. Veneer doors..

To suit public and private places, using the finest types of accessories imported abroad, and modern, high-quality materials imported from abroad, and all this was made by Egyptian hands and with the highest drilling and pressing techniques using the advanced machines The best and most unique..

We have more than 25 internal agents ready for your immediate services

We have the implementation of specifications for large projects and interior decoration

We also always provide after service from installation to be very keen to be the best in your view..

OUR VISIONE

We see ourselves in a completely different place where we have spread in a very short period and in harsh conditions.

Therefore we see ourselves in the coming period able to compete with any competing product due to our complete readiness in terms of technology and raw materials and our ability to export to all parts of the world and the Arab and African markets

Especially due to the agreements that provide precedence for the Egyptian product in the Arab and African markets .

WHY US

Why us? We are distinguished by our ability to develop in a short period. We started in the year 2020 with a main factory with limited employment and limited machines. The beginning was at a difficult time, which is the Corona period that shocked the world, but we were able to have our production capacity at that time in the month 1000 doors, and by 2022 our capacity to expand increased in the production capacity to become 4000 doors per month, and our machines have become in the latest form thanks to the import from abroad. Also, our employment has reached 200 professional people who are able to press. We export to all Arab, African and North African countries, thanks to our geographical location in Egypt because we are near the port of New Damietta as well. Customs at no cost to us, so this helped us a lot to expand and spread, and we also aspire to increase the production capacity to 10,000 doors per month by 2024 and expand the number of our branches around the world

Our Projects

Telal Algoroob project

Al-Amriya Investment Company has the honor to participate with the Ministry of Housing in developing a typical residential neighborhood. The company aspires that this project will be one of the building blocks of the modern vision of the Kingdom of Saudi Arabia (2030) in terms of providing the housing need and raising the standard of living for the Saudi citizen.

Our Projects

Venan Residential Compound

The venan project is located within the scope of future urban expansion in the north of Jeddah, next to King Abdullah Sports City. The project contains 1,292 housing units divided into 5 types of buildings, with designs that mix originality and modernity. It is close to: Al Madinah Al Munawwarah Road, King Abdullah City Al-Jawhara Stadium, King Faisal Hospital, King Abdulaziz International Airport, the new Kingdom Tower, Jeddahar and Al-Haramain Train Station.
